

MASTERKANOPY

UAE CLIMATE CHANGE LAW COMPLIANCE

www.masterkanopy.com

rahil@masterkanopy.com

OVERVIEW

Under UAE Federal Decree-Law No. 11, only entities formally contacted by MOCCAE or their Emirate Focal Point are currently required (as of August 2026) to report and only Scope 1 activity data, calculated by MOCCAE itself. This service prepares your Scope 1 data (2019–present) in advance, so that if and when your invitation arrives, submission is a formality rather than a scramble. It's a lighter-touch, lower-cost engagement than full GHG accounting, focused entirely on getting your direct-emissions data organized, accurate, and submission-ready.

HOW IT BENEFITS YOU

- **Avoids a last-minute scramble** if MOCCAE issues a formal invitation
- **Identifies data gaps early**, while there's no deadline pressure, and confirms where proxies/estimates will be acceptable
- **Positions you ahead of competitors** who wait for the invitation to start organizing records
- **Creates a foundation** that can later scale into full GHG accounting (Scope 2 & 3) once obligations expand (which is expected over time)

SERVICE PROCEDURE

1. APPLICABILITY & SECTOR CHECK

- Confirm whether your operations fall under Energy, IPPU, Waste, Agriculture, or LULUCF
- Identify your relevant Emirate Focal Point

2. SCOPE 1 DATA COLLECTION

- Compile direct-emissions activity data from 2019 to present
- Organize records by year and source

3. DATA QUALITY & GAP REVIEW

- Check completeness and consistency of activity data
- Flag missing years/records and apply reasonable proxies or estimates where needed

4. SUBMISSION-READY DOCUMENTATION

- Compile a standby data file, structured and ready to upload the moment an invitation is received
- Provide a short internal guide so your team knows what to do when contacted

Note: This is a general representation of our process. Actual steps and sequencing may be adapted to suit your organisation's specific needs. The phases above are indicative of our typical approach and may be adjusted based on your company's size, complexity, and individual requirements.

TIMELINE: 2-3 WEEKS*

Stage/Phase	Time
Applicability and Sector Check	2 - 3 days
Scope 1 Data Collection (2019–present)	1–2 weeks
Data Quality & Gap Review	3–5 days
Submission-ready Documentation	2–3 days

*Timeline may vary based on company size, number of facilities, data availability or any other unforeseen circumstances

DELIVERABLES

- 

Scope 1 activity data register (2019–present)
- 

Internal quick-reference guide for when the invitation arrives

WHO THIS SERVICE IS FOR?

- Businesses operating in Energy, IPPU (Industrial Processes & Product Use), Waste, Agriculture, or LULUCF sectors
- Companies anticipating or wanting to pre-empt formal contact from MOCCAIE or their Emirate Focal Point
- Businesses that want to stay lean and compliant-ready without over-investing before reporting is mandatory for them

OTHER SERVICES THAT MAY BENEFIT YOU

- ▲ **ENERGY EFFICIENCY AND OPERATIONAL AUDITS**
Comprehensive facility and process assessments
- ▲ **BEHAVIOUR-LED EFFICIENCY PROGRAMS**
Up to 20% reduction through people-centric approaches
- ▲ **GHG ACCOUNTING AND REPORTING**
GHG Protocol, ISO 14064:1, ISA 5000

THE MASTERKANOPY TEAM

RAHIL VERMA
FOUNDER AND CEO

Rahil is an Energy and Sustainability Consultant with international experience across four continents, specializing in energy efficiency and Net-Zero strategy **with a strong focus on behavior-driven performance**. He delivers measurable savings by pairing technical analysis with workforce engagement and organizational behavior insight.

JINAL ZAVERI
SUSTAINABILITY CONSULTANT

Jinal Zaveri is an award-winning Sustainability Consultant at Masterkanopy, based in Dubai, specialising in GHG accounting, UAE Climate Law compliance, and ESG reporting. She holds an MSc in Sustainability, Entrepreneurship and Design (First Class, Brunel University, UK) and previously worked as a Sustainability Officer at Aston Group in London, where she delivered a 33.29% reduction in emissions against a 20% target.
